Former Sidney Eagles Golf Coach Named Coach of the Year

(L-R) Head Coach Ryan Troxel, Emma Torgerson, Tierney Messmer, Shealyn Bowlds, Torey Dahl, Kaelyn Volk and Assistant Coach Ben Berg.

By Cheyenne Wiley

PGA Professional and former Sidney Eagles head golf coach, Ryan Troxel, has been named Coach of the Year by members of the Montana Coaches Association. Troxel has coached the Eagles' girls and boys golf since March 2015. He resigned earlier in December due to time constraints with a baby on the way.

Under Troxel's guidance, the girls' golf team took home the Class A state championship this fall.

"With the girls' team having the pressure on them all season as the favorite to win, ultimately fulfilling that and being able to bring the state title back to Sidney was a great experience," Troxel said. "I was really happy for the girls to be able to do that."

Troxel also noted that watching athletes' progression and overcoming their struggles has been one of the most fulfilling aspects of his coaching career.

Prior to coaching in Sidney, Troxel was the general manager and head golf professional at Eaglerock Golf Course in Billings. He became an avid golfer at a young age thanks to his father, and he finally decided to make a career of it after college. Troxel is currently the head golf professional at Sidney Country Club.

"I wish all the kids the best of luck in the future," he said. "I think the program is going to be strong and very successful again next year."

Dr. Twigg Becomes Certified in Aesthetic Medicine

Sidney Health Center is pleased to announce that Dr. Shari Twigg will be offering a new service to residents living in the MonDak region and opening an Advanced Aesthetics practice in Fairview, MT.

Aesthetic Medicine includes all medical procedures that are aimed at improving the physical appearance and satisfaction of the patient, using non-invasive to minimally invasive cosmetic procedures. According to the American Academy of Aesthetic Medicine, this specialty is not confined to dermatologists and plastic surgeons as doctors of all specialties seek to offer services to address their patient's aesthetic needs and desires.

Dr. Twigg originally started her career years ago in the aesthetic skincare field, working in a world renowned spa and making a name for herself as an award-winning makeup artist. After going on to become a physician and working in obstetrics and gynecology for several years, she is now combining her medical expertise with her passion for aesthetics. Dr. Twigg recently became certified in Aesthetic Medicine from the American Academy of Aesthetic Medicine (AAAM).

The American Academy of Aesthetic Medicine is dedicated to teaching physicians who have a scientific and clinical interest in exploring the Aesthetic Medicine facet of their practice. AAAM teaches the art, science, techniques and procedures of aesthetic medicine to licensed physicians, regardless of their specialty. Their membership encompasses over 5,000 members from 108 countries worldwide.

According to the AAAM's website, the exciting field of Aesthetic Medicine is a new trend in modern medicine. Patients not only want to be in good health, they also want to enjoy life to the fullest, be fit and minimize the effects of normal aging. Patients are now requesting quick, non-invasive procedures with minor downtime and very little risk. As a general rule, the needle is increasingly replacing the scalpel.

All procedures offered at Advanced Aesthetics are performed by Dr. Twigg. These aesthetic procedures include:

- Injections of Neruotoxins and Dermal Fillers
- Chemical Peels
- Cosmetic Dermatology Treatments
- Microdermabrasion
- Body Contouring and Treatment of Cellulite

Caregivers Encouraged to Attend Workshop

By Marcia Hellandsaas
NDSU Extension Agent, McKenzie County

Has caring for a loved one become stressful for you? Caregiving is rewarding, but let's face it: caregiving is not easy—physically, emotionally and financially.

"Powerful Tools for Caregivers" is a class designed to provide you, the family caregiver, with the skills you need to take care of yourself.

Classes will be held on Thursdays, January 5 to February 9, 2017 from 1:00 pm to 2:30 pm CT at the NDSU Extension Service/McKenzie County Office Meeting Room (office is located in the County Building behind the Courthouse) at 205 6th Street NW in Watford City.

How will the "tools" benefit you? This series will help you in the following ways:

- Reduce stress
- Improve self-confidence
- Balance your life
- Better communicate your feelings
- Increase ability to make tough decisions
- Learn to locate helpful resources

Here is what a past participant has said about this workshop:

"After taking this class, I am a more confident caregiver! Having tools to resolve problems is a definite advantage in becoming a better caregiver and a happier, wiser, healthier me."

When you take care of yourself, everyone benefits.

Pre-registration is requested prior to attending this series. Please contact the McKenzie County NDSU Extension Service at 701-444-3451 or email marcia.hellandsaas@ndsu.edu by Tuesday, January 3. Cost to attend is $35, which includes "the Caregiver Handbook" and snacks at meetings.

Thank You

The Sidney High School Volleyball Program would like to extend a sincere THANK YOU to all those who made donations to the "Kill for a Cure" fundraiser we ran the month of October. This includes the parents, sponsors, and all of you who purchased items throughout this campaign. Thanks to your generosity, the Eagle Volleyball program raised over $14,000!

The Eagle Volleyball organization feels blessed to share those funds by giving money to four individuals dealing with the fallout from cancer, the Emergency Medical Fund, the Cancer Coalition, and the Cancer Center.

This event would not have been a success without the continued support of our community. Our efforts to bring awareness and assistance to those who battle cancer is a cause that all of us feel very passionate about.

Again, Thank You!

Tis The Season For Free Holiday Ride Tokens

By Don Smies, Injury Prevention Specialist DUI Task Force Coordinator

The Richland County DUI Task Force is continuing our effort to confront and reduce buzzed and impaired driving in our county. The Holiday Token Project runs from December 23, 2016 to January 2, 2017. The free ride tokens are provided to local establishments. In turn the establishments disseminate the tokens to anyone who may be impaired, thus providing a free option to get home safe.

The Task Force would like to continue with the Holiday Token Program, but we need your help. Last year the Holiday Token Program cost the Task Force $1425.86. We also provided free ride tokens for Fairview's Old Timers Festival ($245.72) and the Richland County Fair ($248.00). In all $1919.58 was spent. Remember, NO County funds were used to sponsor these programs. The funds were generated through donations and other fundraising activities by the DUI Task Force. We estimate that just the Holiday Token Program alone will need $2000.00 this year. Why, you ask? Our program has gained popularity throughout the community and has saved lives. Last holiday season 134 folks received a safe and free ride home. As a result, DUIs were decreased by 42.85% from the previous year. The Fairview Festival Program provided 10 folks a safe, free ride home. DUIs were reduced 200% from the preceding year. At the Richland County Fair, 30 people received a free and safe ride home. DUIs were reduced a whopping 500% from the 2015 fair.

Our goal, like yours, is to keep impaired drivers off our roadways. Every one of us either drives our roadways every day, or has a loved one that does. By sponsoring ride tokens, you can rest assured knowing your tax deductible donation is making a difference. I know in my heart, if an impaired person is sitting in the back seat of the Sidney Shuttle, they are not going to endanger your family or mine on the roadways of Richland County.

Let's make this Holiday Season the safest yet. Thank you in advance, for your help in this very important program.

You can reach Mr. Smies at 433-2207 or email at dsmies@richland.org. Anyone in the community that is interested is encouraged to come to the quarterly meetings and to participate as you like. Together we will make a difference.

PUBLIC OPPORTUNITY TO PROTEST ONE NEW MONTANA RETAIL ON-PREMISES CONSUMPTION BEER AND WINE WITH CATERING ENDORSEMENT LICENSE

Black Horse Hotel & Casino LLC. (Members: Lynne P Finnicum, Christy N Melancon) has applied for One Original New Montana Retail On-Premises Consumption Beer and Wine with Catering Endorsement License No. 17-212-6839-302 to be operated at 5864 Highway 405 North, Bainville, Roosevelt County. The public may protest this license transfer in accordance with the law.

Who can protest this license?
Protests will be accepted from residents of the county of the proposed location (Roosevelt), residents of adjoining Montana counties (Daniels, Valley, McCone, Richland, Sheridan), and residents of adjoining counties in another state if the criteria in 16-4-207(4)(d), Montana Code Annotated (MCA), are met.

What information must be included?
Protest letters must be legible and contain (1) the protestor's full name, mailing address, and street address; (2) the license number (17-212-6839-302) and the applicant's name (Black Horse Hotel & Casino LLC.) (3) an indication that the letter is intended as a protest; (4) a description of the grounds for protesting; and (5) the protestor's signature. A letter with multiple signatures will be considered one protest letter.

What are valid protest grounds?
The protest may be based on the applicant's qualifications listed in 16-4-401, MCA, or the grounds for denial of an application in 16-4-405, MCA. Examples of valid protest grounds include: (1) the applicant is unlikely to operate the establishment in compliance with the law; (2) the proposed location cannot be properly policed by local authorities; and (3) the welfare of the people in the vicinity of the proposed location will be adversely and seriously affected.

How are protests submitted?
Protests must be postmarked to the Department of Revenue, Office of Dispute Resolution, P.O. Box 5805, Helena, Montana 59604-5805 on or before January 23, 2017.

What happens if the transfer is protested?
Depending on the number of protests and the protest grounds, a public hearing will be held in Helena or Bainville. All valid protestors will be notified of the hearing's time, date and location. Hearings typically are scheduled within 90 days. A protester's hearing testimony is limited to the grounds in the protester's letter. Following the hearing, the Department of Revenue will notify the public whether the license transfer is approved or denied.

How can additional information be obtained?
The cited MCA statutes are online at leg.mt.gov/bills/mca_toc/. Questions may be directed to Mike Sell, Compliance Specialist for the Department of Revenue's Liquor Control Division, at (406) 444-3505 or MSell@mt.gov.

Positive Influenza Case in Richland County

Submitted by Julie Brodhead, RN, RCHD Communicable Disease Surveillance Nurse

Richland County's flu season has begun with a positive Influenza A case tested locally on December 14th, 2016. The preliminary result was confirmed on December 16th by MT State Public Health Lab showing Influenza A-Seasonal H3. The 53 yr old male was hospitalized and was not vaccinated for this influenza season.

The symptoms of influenza: sudden onset of fever, chills, fatigue, body aches, headache, chest discomfort and a cough. A person may experience all or most of these symptoms. You may catch influenza or the "flu" when you breathe in the virus from someone else's cough or when you touch a surface with the virus on it (such as a phone or faucet) and then touch your nose, mouth or eyes. The risk of infection from influenza is higher in crowded public areas and living quarters. Persons begin to show symptoms within a week of being exposed to the virus.

Richland County Health Department wants residents to know there is time to get a flu shot from the health department, local healthcare provider or pharmacy.

Vaccination remains the best prevention for influenza and influenza related complications. Influenza vaccine is recommended for everyone from ages 6 months and older. Persons who have any chronic health condition (diabetes, heart disease, cancers, immune suppressed, pregnant, have compromised lung/respiratory diseases, etc,) are at higher risk of complications from influenza illness and are strongly urged to get yearly influenza vaccinations. Influenza vaccine for this 2016-17 season covers the Influenza A-Seasonal H3 along with 2009 H1N1and two influenza B strains.

In addition to vaccination please take precautions to limit the spread of disease, including:

- Wash your hands thoroughly and frequently;
- Cover your nose and mouth with a tissue when coughing or sneezing;
- Stay home from work, school, daycare and large gatherings when you're sick;
- Get plenty of rest; and
- Eat nutritious foods and drink plenty of fluids.

Vaccinations are given Monday, Tuesday & Wednesday from noon to 4:30 pm at the Richland County Health Department located in Community Services Building. No appointment is needed but you may call 433-2207 for more information.

Nutrition and Feeding of Beef Cattle

Cattle are ruminants, the digestive system of cattle includes a large fluid filled rumen containing a large population of microbes. Microbes have the ability to break down fibrous components of roughages and initiate feed digestion. As feed passes from rumen to smaller stomach structures, the body absorbs the water and the animal's digestive enzymes further break down feed for nutrient absorption. As calories define the energy in food we eat, and what is used/required for activity and growth; in cow rations, energy is often expressed as TDN (Total Digestible Nutrients). This may be expressed on a percentage basis of feed or in pounds per day. Cattle obtain energy from digestible fiber, starch and to a lesser extent sugars and fats. Protein is required both for the rumen microbial population and the animal. The animals need protein for growth, lactation and reproduction is met by a combination of microbial protein and protein which bypasses rumen breakdown and is digested and absorbed further in the GIT (gastrointestinal tract). Supplying the need for rumen nitrogen is met by feed sources which are easily degraded in the rumen. Microbial activity is further associated with greater fiber breakdown and roughage intake.

In addition to energy and protein, a variety of minerals and vitamins are required for physiological functions. Calcium and phosphorus are needed in the greatest quantities with varying concentrations among commonly fed feeds. While other minerals as copper, zinc, selenium are needed in much smaller quantities, they are often deficient on feed produced in soils in the region and provided in supplements. Most vitamins are often provided in high quality, fresh green forages, but are also supplemented to insure against deficiency with mature, weathered forages, grains and grain by products.

Nutrient needs are greatest shortly after calving in early lactation and returning to estrus for rebreeding. Conversely nutritional needs are lowest following weaning while cows are dry and in mid-gestation. It is an opportunity to utilize lower value cost feed alternatives and/or to cheaply put weight on and recondition cattle. Young developing cows, two and three year olds, require higher quality feeds to meet their added requirement for growth. Cows selected and capable of high milk production will have increased nutrient needs for both maintenance and milk production. While larger cows do not need feeds higher in quality or nutrients expressed as a percentage, they will have greater intakes and a need for additional quantities of protein and TDN. In the north, cold stress also impacts energy needs. Cold stimulates intake and if given the opportunity a cow can eat more to meet added need to about -10 degrees F. Extremes beyond this due to wind chill or ambient temperatures require feeding higher energy feed rather than increasing feed provided. The impact of cold on cow energy needs is less for cows in good flesh and body condition. This information is from John Dhuyvetter, Area Livestock Specialist at the North Central Research Extension Center.

WSC to Offer Housing Scholarship

Just when you think its not possible for Regional and Williams County Graduate (WCG) Scholarship recipients to receive anything else, the Williston State College Foundation provides another scholarship to offset the expense of housing.

For the next three years beginning Fall 2017, students attending WSC as part of the Regional or WCG Scholarship can apply for the Regional County Housing Scholarship to receive $1,000 per semester to live in Frontier Hall.

"Having these dollars allocated to help with the offset of education expenses from our donors provides an opportunity to fill Frontier and provide the college experience of living in a dorm at reduced rates," explained Terry Olson, Executive Director WSC Foundation.

The primary dormitory, Frontier Hall was opened during the Fall of 2011 and provides co-ed dormitory-style housing. Standing three stories high, Frontier Hall can house 170 students in four bedroom suites with double ($2,600/semester) and single room ($3,900/semester) options.

Though both scholarships (Regional and WCG) cover the cost of tuition and fees up to sixteen credits for four consecutive semesters, living in the on-campus dorms has been a cost concern for several students attending WSC with this scholarship.

"We have heard the request and are taking action," explained Terry Olson, Executive Director WSC Foundation. "We want our regional students to look at WSC to receive a great education for the lowest amount possible while still getting the college experience. If our great dorm is not being utilized as it should, we want to solve the problem."

To be considered for the Regional County Housing Scholarship, students must submit an Application for Admissions and a Housing Application. The Regional County Housing Scholarship is on a first come first serve basis so early admission is recommended.

To maintain eligibility for the Regional County Housing Scholarship, students must maintain the following minimum requirements that are part of the Williams and Regional County Scholarships: full-time status (twelve to sixteen credits); enrolled for up to four consecutive semesters (excluding summers); a 2.0 term GPA; and enrollment in at least one on-campus course per semester.

These scholarships will continue at WSC as long as funding and donations are available. The WSC Foundation encourages anyone interested in donating to please contact the WSC Foundation at 701-572-9275.

For more information on WSC, please visit www.willistonstate.edu, call 1-888-863-9455, or stop by 1410 University Avenue, Williston, ND.

It was a great weekend of fun for the boys as each team Saturday played 3 games. The games were followed by an on ice skills competition in which players from each team signed up to race forward, backward, quick fire, and an accuracy competition. The skills competition was followed by open skate shut off the lights fun skate. Special thanks goes out to the Richland Ranger Squirt families for all their hard work and volunteerism.
