Medicare Phone Scams Reported

The Montana Senior Medicare Patrol (SMP) program has received a report of an apparent telephone scam in Eureka, Montana that spoofed the Area IV Office on Aging’s number. Spoofing is where phone scammers use software to mask their real identities by displaying a fake telephone number, often to mislead people into thinking the call is from a reputable business or person. The caller attempted to get personal information under the guise of helping the recipient with their Medicare, including asking for their Social Security number.

“We expect more calls across the state. Medicare and your local SHIP Counselors would never initiate calls and ask for that information on the phone,” said Renee Labrie-Shanks, Montana SMP Program Manager. “Anyone calling to talk about changes to Medicare, including anything to do with the new Medicare cards, would be a scam.”

New Medicare cards with new numbers will be mailed to people on Medicare between April 2018 and April 2019, however they will be automatically mailed and no one will receive calls.

If you should receive a call from someone trying to collect your personal information, do not tell them anything, she advises. Instead, try to gather as much information as you can about the person calling, and then report the calls to your local SMP office by calling 1-800-551-3191. You can also call for more information regarding the new Medicare cards.

Montana SMP is a statewide program which fights health-care fraud by educating older adults on how to protect, detect and report fraud. Missoula Aging Services administers the program through Area Agency partner organizations around the state.

Rodney Grant Krugler was born on February 25, 1953 to Douglas and Mary (Trotter) Krugler in Sidney, Montana. He graduated from Sidney High School in 1971 where he enjoyed success on the football team and in musical performances. Following his adventurous nature and a job opportunity, he and a friend headed to Louisiana to work in the oil and gas production field where he worked until 1997. Peterson Receives Outstanding Local JSEC Coordinator Award

By Dianne Swanson

Cheryl Peterson was presented the Outstanding Local JSEC Coordinator award last week for her exemplary job at helping the JSEC committee achieve the goals they have deemed beneficial to the business community.

In the nomination letter, JSEC cited Peterson's willingness to assist in any project that needs to be done. Peterson has guided the committee in determining what classes, speakers and workshops the community feels are essential for employee and employer growth and improvement, resulting in Quick Book classes, bridging generational differences, leadership and workforce improvements and more.

Peterson implemented a booth at the Richland County Fair for businesses to use to recruit new employees. She also has been instrumental in contacting Richland County schools

concerning the JSEC scholarship which is awarded to a high school senior going to a trade school.

Since human trafficking is a problem in the area, Peterson has spent countless hours researching speaker availability and organizations that would be of assistance in bringing awareness of the problem to youth and parents as well as the business community.

JSEC cited Peterson's willingness to assist in any way she can within the structure of her job duties with the Sidney Job Service. "Cheryl is a commensurate professional, highly motivated and organized, and is a key contributor to the success of the Sidney JSEC."

Pictured are, L to R, Susan Joy, executive director of the Sidney Area Chamber of Commerce; Leann Pelvit, MonDak Heritage Center; Peterson, and Heather VanGelder, OneOK.

Dr. Twigg becomes Board Certified in Aesthetic Medicine

Dr. Shari Twigg recently became Board Certified through the American Academy of Aesthetic Medicine. She joins over 300 physicians worldwide who have passed the Board Certification written exam and oral presentation. To be eligible for this ten-year certification, physicians must complete the Level 1 Certificate and Level 2 Diploma Courses in Aesthetic Medicine in addition to six months of practical experience in the field.

Dr. Twigg originally started her career years ago in the aesthetic skincare field, working in a world renowned spa and making a name for herself as an award-winning makeup artist. After going on to become a physician and working in obstetrics and gynecology for several years, she combined her medical expertise with her passion for aesthetics.

Aesthetic Medicine includes all medical procedures that are aimed at improving the physical appearance and satisfaction of the patient, using non-invasive to minimally invasive cosmetic procedures. Typically, medical spas perform many of the same procedures that are offered at regular spas, but with a more results-oriented focus and a larger arsenal of medical-grade tools because they are used under the guidance of a physician.

Under the direction of Dr. Twigg, Sidney Health Center's Advanced Aesthetics offers a full-range of nonsurgical cosmetic procedures for women (and men) of all ages.

Some of the most popular aesthetic procedures include:

- Botox and Xeomin treatments help soften dynamic wrinkles/lines and create a more youthful appearance. Results can last three to four months.
- Juvederm dermal fillers are used for facial lines and wrinkles or to add fullness to the lips and cheeks. Results typically last 12-24 months, depending on the type of procedure.
- Intense pulsed light (IPL) treatments help create

homogenous complexion and skin texture by treating signs of aging and sun-induced changes including brown pigmentation, age spots, broken blood vessels, stretch marks, rosacea, and acne clearance.

- Microneedling involves various percutaneous collagen induction treatments using hyaluronic acid and vitamin C, hydroquinone, or platelet-rich plasma (PRP) to treat acne scars, scars, fine lines and wrinkles, skin laxity, diminished texture, tone and color, and even stretch marks, creating a fresher appearance and glow to the skin.
- Skinfinity Radiofrequency Thermal and Fractional Ablative Therapy tightens and resurfaces the skin and also improves fine lines and wrinkles, scars or acne scarring, sun damaged skin and brown spots on the face and neck. This procedure stimulates new collagen formation to improve visible signs of aging.
- Viora Body Sculpting use radiofrequency to deliver contouring and cellulite reduction by shrinking fat cells that results in a firmer, tighter appearance of the skin with little to no downtime.
- Kybella is a non-surgical injectable for reducing moderate to severe fat below the chin, commonly referred to a “double chin.” The injection contains a naturally occurring substance in the body which helps the body absorb fat cells.
- Sclerotherapy is the treatment of superficial leg veins, spider veins and reticular veins. It involves injecting a solution directly into the vessel, causing the vein to collapse and reroute blood to healthier veins.

To find out more about any of these treatments or to schedule a consultation with Dr. Twigg, please call the office at 406-742-5256. Advanced Aesthetics is located in the MonDak Clinic building at 304 S Ellery Avenue, Suite #2 in Fairview, MT.
