# Mark Your Calendars for the MonDak Area Field Days in June and July

By Meagan Dotson

The MonDak area is home to a unique “research triangle” featuring three agricultural research facilities in Sidney, MT and Williston, ND that regularly share the results of their work with producers through annual summer field days. This year, the group’s field days are scheduled as follows:

The 2016 Froid Research Farm Field Day will be held Thursday, June 23rd, from 1:00pm until 5:00pm mountain time at the farm site located eight miles north of Culbertson, MT on MT Hwy 16. In addition to a tour of the farm, the day’s activities include several outside speakers (yet to be finalized) and a special soil sampling demonstration. The Field Day is sponsored by the USDA-ARS Northern Plains Agricultural Research Laboratory in Sidney, MT; the Roosevelt and Sheridan County Conservation Districts in Culbertson, MT and Plentywood, MT, and the Roosevelt, Sheridan, and Richland County Extension Services in Culbertson, Plentywood, and Sidney, MT. There will be a free steak supper following, sponsored by the Roosevelt and Sheridan County Conservation Districts.

Friday, June 24th, a Dryland Field Day will be held from 9:00am until noon, beginning at the Sidney ARS Rasmussen dryland research farm located four miles north of Sidney on MT Hwy 16. The Dryland Field Day includes a tour of both Sidney ARS research plots and adjacent dryland plots operated by Montana State University’s Eastern Agricultural Research Center (EARC). This is the second year the two research facilities have joined together for the field day which will include additional outside speakers along with the plot tours. A free luncheon will follow, sponsored by the Richland County Extension Office. For more information, contact the ARS at 406-433-9427.

On Thursday, June 30th, the MSU Eastern Agricultural Research Center will host its annual Field Day in Sidney, with the focus on irrigated crops. Registration and

refreshments will be at the EARC research facility at 1501 N Central Ave in Sidney, beginning at 9:00am mountain time until 1:30pm. At 9:30 a welcome and introduction will be given, followed by the tour. Tentative topics include variety evaluation for sugar beets, pulse, and cereals, disease control in sugar beet and pulse crops, fertility studies, and crop rotations with speakers yet to be determined.

For more information, contact the EARC at 406-433-2208. There will be pesticide application points available for all three Field Days.

The Williston Research and Extension Center will be holding their Dry Land Field Day on July 14th located at the Extension Center, 14120 Hwy 2, Williston, ND tentatively scheduled for 9:00am until 4:00pm central time with no registration required. During the morning session, attendants can participate in the Agronomy Tour, focusing on field crops such as wheat, durum, barley, lentils, and peas or they can participate in the Horticulture Tour, which will focus on fruit and vegetable production. Both tours are open to everyone and a panel session will be held in the afternoon, with the topic yet to be determined. That evening, the MonDak Ag Showcase will take place from approximately 5:00pm to 7:00pm central time. The social, sponsored by the Williston Economic Council, will provide a great opportunity for Agricultural Business owners to discuss ag-related issues; the location is yet to be determined.

July 15th a tour of the Nesson Valley Site located 25 miles east of Williston on ND Hwy 1804, will focus on irrigated agronomic crops such as corn, wheat, legumes, and sugar beets. Horticulture Specialist Kyla Splichal will also be speaking about high-tunnel vegetable crops. High tunnels are light weight metal frames enclosed in plastic that can extend the growing season for vegetable crops. This tour will tentatively be held from 9:00am to 12:30pm with a free lunch provided after the tour. This field day and lunch are open to the public. For more information, contact the Williston Research and Extension Center at 701-774-4315.

# Public Comment Period To Open on LYIP Intake Fish Passage Project EIS

Lower Yellowstone Irrigation Project faces another hurdle with public comment on the Intake Diversion Dam Fish Project Environmental Impact Statement.

The draft EIS is now available through Reclamation's Lower Yellowstone Project Website: <http://www.usbr.gov/gp/mtao/loweryellowstone/index.html>. The public comment period will open on Friday, June 3, 2016 when the Environmental Protection Agency publishes the Notice of Availability (NOA) in the Federal Register. The public comment period will run for 45 days, ending on July 18, 2016.

Two public meetings will be held: Tuesday, June 28, 5:30 p.m., Richland County Event Center, Sidney and Wednesday, June 29, 5:30 p.m., Dawson County High School Auditorium, Glendive.

Comments can be submitted three ways: handwritten or verbal at a public meeting; email: [cenwo-planning@usace.army.mil](mailto:cenwo-planning@usace.army.mil) or by mail to U.S. Army Corps of Engineers Omaha District, Attn: CENWO-PM-AA, 1616 Capitol Avenue, Omaha, Nebraska 68102.

The Corps and Reclamation are serving as joint lead federal agencies in the preparation of

the EIS which analyzes six alternatives: no action, rock ramp, bypass channel, modified side channel, multiple pump, and multiple pumps with conservation measures. The Corps and Reclamation have identified the Bypass Channel Alternative as the Preferred Alternative.

All public comments will be reviewed by the Corps and Reclamation and will be included in the final EIS.

# Montana Farmers Union Report: Climate Change Could Cost Agriculture Industry Almost 25,000 Jobs and \$726 Million During Next 50 Years

Submitted by Adam Pimley

According to an eye-opening new report released today by Montana Farmers Union, Montana's robust agriculture economy could take a big hit from changes in our climate. The report, titled The Impacts of Climate Change on Montana's Agriculture Economy was co-authored by renowned Montana economist Dr. Thomas Power and

highlights the serious economic threats faced by Montana's farmers and ranchers as our average temperatures continue to rise and growing conditions change.

While several studies and reports have examined how warming temperatures will impact Montana crop & cattle production, this is the first time economic impacts from those changes have been examined.

"2015 was a big year for Montana agriculture. Production was up 7% over 2014 levels and topped \$5.2 billion in economic impact for the first time ever," said Chris Christiaens, Montana Farmers Union Legislative Director. "Montana Farmers Union is committed to ensuring our agriculture industry remains robust, even in the face of serious challenges from changes in our climate."

U.S. Senator and organic farmer Jon Tester said, "as a farmer I've seen the impacts of climate change firsthand. The bizarre changes in weather over the past 20 years are unlike anything I've experienced on the farm. The negative impacts on agriculture are undeniable and to sit back and do nothing is irresponsible."

"The report is a "business-as-usual" look at the numerous challenges Montana farmers and ranchers will face as warming temperatures brought on or made worse by the expected 4-5 degree average temperature increase," said co-author Tom Power, University of Montana Research Professor and Professor Emeritus. "We project a 20 percent drop in rangeland cattle production and a 25 percent decline in grain production by 2055."

"Statewide, we're looking at 5 to 15 additional days each year when the temperature rises above 95 degrees, couple that with an expected 5-10% less rain in the summer and you have a growing season that looks very different than the one we enjoy today," said co-author Donovan Power. "And in winter, we expect to see 20-40 fewer days below freezing. The increased heat coupled with less moisture in the summer brings the potential for new weeds and pests to thrive."

The report found that Montana's grain production will be affected by changing weather patterns and shifting growing seasons, reduced winter snowpack and summer rainfall, hotter spring and summer days and nights, and expanding ranges of weeds and pests, reducing crop yields by as much as 25% and costing farmers almost 12,500 jobs and \$372 million in earnings.

Cattle production will be similarly impacted. Water shortages, increased temperature, and increased concentrations of CO2 will make grass and hay less digestible and nutritious to livestock. This, along with increased competition from weeds, is predicted to reduce the productivity of the rangeland cattle industry by 20%, costing ranchers just over 12,000 jobs and \$364 million in earnings.

Erik Somerfeld, who grows wheat, malt barley and hay on the family farm near Power, Montana, said, "It's no secret to farmers that things are changing. We see it in every season. We're planting at least 2 weeks earlier than we did 10 years ago, and we're not getting the early and mid-summer moisture that crops like malt barley need."

This report is part of Montana Farmers Union's ongoing climate change education program, which aims to help Montana farmers and ranchers continue producing high quality agriculture products, even as climate impacts such as changes to growing seasons, availability of water and changes in weed and pest ranges.

Montana Department of Agriculture Director Ron de Yong said, "It's important for our industry to review climate information and reports like this one to help make decisions from policy to practices in the field going forward. We look forward to continued research on climate change, it's impacts, and adaptation strategies for agriculture."

The Montana Farmers Union is a statewide, grassroots organization celebrated its 100th anniversary last year. Through those years MFU has worked for strong family farms and ranches, has advocated for the members' policies at the state and federal level, has worked to support strong producer cooperatives, and has provided education for all ages.

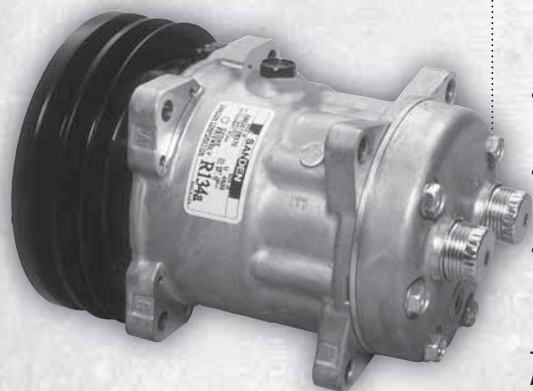

The full report can be viewed & downloaded on the Montana Farmers Union webpage: [www.montanafarmersunion.com](http://www.montanafarmersunion.com)

## CNH INDUSTRIAL REMAN A/C COMPRESSORS: MORE COOL, CRISP AIR FOR LESS COLD, HARD CASH.

With CNH Industrial remanufactured A/C Compressors, you have a repair option that meets or beats Case IH performance standards, yet still costs 20-40% less than new. Saving money without compromising quality – that's helping you keep your cool.

### The CNH Industrial Reman advantage

- **100% NEW WEAR PARTS**  
All ball shoes, gaskets, o-rings, shaft seals and bearings are replaced with new Case IH parts
- **BALANCED AND TESTED**  
Meets or exceeds Case IH specifications
- **LEAK-FREE ASSEMBLIES**  
Thoroughly tested to ensure zero refrigerant loss
- **BEST-IN-CLASS PROTECTION**  
Industry-leading 12-month warranty covers parts AND labor when installed by a Case IH dealer

To order CNH Industrial Reman A/C Compressors, see your local Case IH dealer.

# High School Senior Starts His Own Business

By Sheridan Martin

Trey Bloesser, a recently graduated senior from Savage High School, is the ultimate example of Montana students. Bloesser has been able to earn over \$20,000 in scholarships, has started his own successful business; while at the same time working on his family farm and enjoying hiking and fishing. What started as a joke, and later an assignment for Trey's Entrepreneurship class, he was able to start up his own business; Burns Creek Creations. With Burns Creek Creations, Trey produces art, furniture and custom pieces using horseshoes. Trey and his dad work in a personal shop and will soon have a room dedicated to his work at Picture Perfect Studios in Sidney, MT.

"People have been really awesome since opening, and this work has definitely taught me a lot about working with people," said Trey. "They understood that I was still in school and finishing up, and they would be really great and let me know to just get it done when I could. Not to mention, I've just been enjoying the work and the customer experience all together." Bloesser has worked hard his entire high school career; earning really good grades all four years, filling out many letters of recommendation for scholarships and scoring very high on his ACT. "I'm really grateful for my mom, she really helped me a lot through all of this. And our school has a really great guidance counselor. I just really wanted to go into college debt free and I'm happy to have reached that goal," said Trey.

Trey will go on to college in Bozeman, MT where he plans to major in Livestock Production and Management; while still working hard and enjoying the Montana landscape. Burns Creek Creations has their own Facebook page where you can look at Trey's designs and get in touch with him. Soon, he will have his very own studio located at Picture Picture Perfect Studios (owned by Jan Bloesser, Trey's mother), where he can showcase his art and products for sale and orders. Be sure to check them out!

One of Burns Creek Creations' most popular items; the Wine Lover's rack which can hold 13 bottles.

You can get your very own boot rack made by Burns Creek Creations for only \$120.

Burns Creek Creations' booth at Trey's very first antique show.

# WREC 2016 MonDak Ag Showcase Scheduled for July 14-15

By Bill Vander Weele

The 2016 MonDak Ag Showcase is scheduled for July 14-15 at the Williston Research Extension Center Ernie French Center in Williston.

“We’ve got more people willing to speak this year than for the last few years from private industry, NDSU and USDA,” said Jerry Bergman, director of the North Dakota State University Williston Research Extension Center. “We’re looking forward to hearing from all of them.”

The dryland tour will run from 8:30 a.m. to 5 p.m. on July 14. The center is located 0.6 miles west of the junction of Highway 2 and Highway 85.

Bergman said topics will include cropping rotation, weed control for small grains and plant diseases.

After coffee and rolls at 8:30 a.m. and a welcome at 9 a.m., a horticultural tour is planned to begin at 9:15 a.m.

Lunch, starting at noon, will feature BBQ chicken. “Stump the Plant Doctors” will take place during lunch.

Bergman explained “Stump the Plant Doctors” will feature weed scientists, plant pathologists and agronomists. “People can ask them questions about anything them,” Bergman said.

Afternoon seminars begin at 1 p.m. The MonDak Showcase social/dinner is scheduled for 5:30-8:30 p.m.

On July 15, coffee and rolls start at 8:30 a.m. at the Williston Research Extension Center’s irrigation site located 23 miles east of Williston on Highway 1804.

An irrigation tour begins at 9 a.m. and lunch is at noon. Topics on the tour will include irrigation management, crop varieties, potato and sugar beet production and alternative irrigation crops.

# WIFE Announces The Winners Of Their 30th "The Art Of Farming" Calendar

## Art Contest

Montana WIFE (Women Involved In Farm Economics) announces the winner of their 30th "The Art of Farming" calendar art contest. WIFE received 437 entries, with 172 from Scobey Schools and we thank the students and their teachers for sending some excellent art that made judging them a challenge. Cash prizes and certificates have been awarded to first, second and third place winners and certificates for the

honorable mention places in kindergarten through eighth grades; a total of 45 winners.

Only 25 drawings can be used on the 2017 calendar that will be ready for distribution in the fall. We try to put pictures on the calendar from all grades around Montana. This contest is held in conjunction with National Ag Week and students draw about their interests in farm life. This year's winners with any placing on the calendar are:

### Kindergarten

Liv Cote, Scobey, 1st place, July; Felixe Becker, Lambert, 2nd place; Chloe Handran, Scobey, 3rd place; Rayleigh Waggoner, Lewistown, Honorable mention; Andrew Thomas, Elliston, Honorable mention.

### First Grade

Kailaya Vanderholm, Havre, 1st place, June; Noah Waldner, Cut Bank, 2nd place, December; Danica Denowh, Sidney, 3rd place; April DeFord, Ekalaka, Honorable Mention; Ruth Solberg, Scobey, Honorable Mention.

### Second Grade

Waverly Konen, Fairfield, 1st place, January; Maisy Skaggs, Froid, 2nd place, Back page; Olivia Leininger, Scobey, 3rd place; Sophie Roberson, Ft. Benton, Honorable mention; Sophia Stewart, Ft. Benton, Honorable mention.

### Third Grade

Marcus Wipf, Conrad, 1st place, back page; Leah Knudsen, Culbertson, 2nd place, back page; Destiny McIntosh, Winifred, 3rd place, October; Sawyer Andon, Sheridan, Honorable mention; Camilla Mandel, Conrad, Honorable mention.

### Fourth Grade

Jacelyn Brown, Saco, 1st place, February; Andrea Wurz, Conrad, 2nd place, March; Tristen Lingle, Culbertson, 3rd place; Jacob Lind, Sheridan, Honorable mention; Danielle Cahill, Scobey, Honorable mention.

### Fifth Grade

Kayla Wipf, Conrad, 1st place, May; Aimee Wurz, Conrad, 2nd place; Own Fishell, Scobey, 3rd place, September; Ellie May Guthrie, Fortine, Honorable mention; Kass Baldry, Scobey, Honorable mention.

### Sixth Grade

Adrianna Wipf, Conrad, 1st place, April; Luana Righi, Scobey, 2nd place; Kayara VanHoy, Fortine, 3rd place, J.P. Braut, Scobey, Honorable mention; Reagan Machart, Scobey, Honorable mention.

### Seventh Grade

Madison Manshiem, Kinsey, 1st place; Gracee Lekvold, Scobey, 2nd place, November; Carson Summers, Scobey, 3rd place; Jayden Wipf, Conrad, Honorable mention; Taylor Leischner, Scobey, Honorable mention.

### Eighth Grade

Sadie Hohnson, Roy, 1st place, Cover; Taylor Crohn, Scobey, 2nd place, August; Sarah Anson, Sheridan, 3rd place; Keenan McCalmont, Ekalaka, Honorable mention; Wyatt Welchlin, Scobey, Honorable mention.

The Calendar has a cover, 12 months and 3 back pages with four small pictures each.

# Lambert Residents Report Large Number of Mosquitos

By Bill Vander Weele

Although mosquitos aren't actually biting them to death, some Lambert residents might tell you that it feels that way this year.

Lambert resident Bryan Prevost told Richland County commissioners during a recent meeting about the very unpleasant situation.

Prevost said he wasn't aware of how bad it was until attending high school graduation activities. "It's horrible," the Lambert native said.

He added the conditions were also bad at a cemetery in the community. "It's horrible there, too," he noted. "I don't know what to do."

Last year, Prevost contacted commissioners about the problem shortly before the Fourth of July celebration. The county then provided cans of mosquito repellent to people attending the event. With cans left over, the county also offered them at the Fairview Old Timers Festival.

Commissioner Shane Gorder said he attempted to reach out to other counties to see what they do to fight mosquito problems. Some have formed mosquito districts. Broadwater County has its weed district and mosquito district combined.

Gorder believes that in order to form a mosquito district, 40 percent of registered voters or property owners must be in support.

Prevost said his understanding is that people used to go door to door and get donations for the effort that way. A plane was utilized to spray the area until complaints were made.

"I will try to do some research to find out our next step," Gorder said. He plans to contact the Montana Association of Counties.

Commissioner Duane Mitchell said he will see what some North Dakota communities do to control the problem.

At this point, commissioners haven't heard concerns from other communities.

# Richland County 4-H Holds Annual Speech And Demonstration Day

By Josie Evenson

The annual 4-H Speech and Demonstration Day was held on May 1 at the Sidney High School. Speech and Demonstration Day is a local 4-H event, where 4-H members get to practice public speaking skills that build self-confidence and self-esteem. This year the event was comprised of three different categories for 4-H youth to compete in; Demonstrations, Prepared Public Speaking and Career Communications.

A demonstration gives the 4-H member the ability to teach others how to do something that they have learned, they present the step by step process to the audience and judges. They are evaluated on understanding of subject matter, their public speaking skills and how they answer questions from the judges. In the Prepared Public Speaking category youth communicate an idea, thought or point of view without using any visual aids. They are evaluated on knowledge of subject matter, speaking skills and maintaining audience interest. The Career Communications is a contest that is new this year. In this category, youth get to go through a mock interview for a career of their choice, including an application, cover letter, resume and interview. This year 18 4-H youth competed in these events.

Five of those youth competed in the Junior Demonstrations; juniors are age 9-13. Taking top honors in this division were Jori Horsburgh, as the top girl demonstrator, with her demonstration on How to Make a Blueberry Smoothie and Corbin Steinbeisser, top boy demonstrator, with his demonstration How to Make a Natural Battery.

Marett Schieber, Curtis Mullin and Bobby Knotts also impressed the judges and received blues for their demonstrations.

The Crown Division is comprised of junior members who have, in years previous, already won their respective division. This year three youth competed in the Crown Demonstration division and taking top honors was Becca Deming with her demonstration on How to Make Flarp. Emma Torgerson received a blue and Frank Kunda received a red in this division.

Three 4-H youth also competed in the Junior Speeches. Amariah Hier took top honors with her speech titled "Lower Yellowstone Irrigation Project." Lauren Prevost and Corbin Mullin also competed in this division and both received blue ribbons.

In the Senior division for Demonstrations Kyle Topp, Rakayle Hier and Katrina Meldahl all received blue ribbons. Also in the Senior Speech division Seth Prevost and Sierra Osborne were awarded blue ribbons.

In the new Career Communications division four Richland County members competed. Receiving a red was Jake Kunda and blues were Sierra Osborne, Johren Carpenter and Kyle Topp.

All top juniors will be honored at this year's Achievement Day that will be held in the fall. All seniors that received blue ribbons and meet all other requirements are eligible to attend Montana 4-H Congress in the summer to compete for the state title. Richland County 4-H would like to thank all the judges, volunteers and Sidney High School Staff for making this a successful event.

# Extension Update: Cutworms in Northeast Montana and Western North Dakota

**Jeffrey M. Chilson, MSU Extension Agent, Roosevelt County, MT**

Montana State University Extension has received reports of cutworms in Northeast Montana and Western North Dakota (Roosevelt, Sheridan, Valley and Williams County). Cutworms are moths that are native to North America with one reproductive cycle per year. The larvae of the moth is the stage that is damaging to crops. There are two main types of cutworms present in the MonDak region and both varieties may cause damage to small grains, alfalfa, canola, peas and sugar beets. Pale Western Cutworm larvae feed on the plants' stems below the surface and can be found below the surface of the soil, 2-5 inches deep. Larvae of the Pale Western Cutworm are pale yellowish gray with two white stripes along the mid dorsal line that form a V and can reach lengths up to 1 ½ inches. The second variety, the Army Cutworm, feeds above ground at night and resides in the dry upper portions of the soil. Damage may, therefore, be visible. Army Cutworm larvae usually have a pale mid-dorsal stripe and the head is pale brown with darker brown freckles; their bodies are greenish-brown to greenish-grey with the dorsal (top) side of the body being darker than the ventral (bottom). Multiple insecticides are registered for control of cutworm and both species are susceptible to parasitic wasps. For additional information please contact your local extension office or visit [msuextension.org](http://msuextension.org) and search for cutworm publications.

## Farm Equipment Auction

# Friday, June 10, 2016

Time: 1:00pm MDT

Location: From Hettinger, ND 17.5 miles south on SD Hwy 75 to mile marker 228 then 1 1/2 miles east. From Bison, SD west on SD 20 to the junction of Hwy's. 20 and 75 then 14 miles north on Hwy. 75 to mile marker 228 then 1 1/2 miles east.

**Owner: Dale Hedstrom - Lodgepole, SD**

## Register Now for the Sidney Chamber 17th Annual Ag Appreciation Golf Tournament

By Bill Vander Weele

Registration for golfers and sponsors are now taking place for the 17th annual Ag Appreciation Golf Tournament scheduled for July 11 at the Sidney Country Club.

Vanessa Pooch, chair of the Sidney Chamber's agriculture committee, said there is one new sponsorship level this year. Being a Partnership sponsor costs \$1,000. "It's for local businesses who want to be more involved in the network process," Pooch explained.

Partnership sponsors will have the opportunity to talk with participants and sponsors throughout the course while having a cart with beverages.

Cost for a team sponsor for two golfers remains at \$200. A hole sponsorship costs \$150 and provides the chance for business representatives to talk with golfers at the hole. A cart sponsorship is \$50.

The day will begin with registration and breakfast at 7:30 a.m. Tee-off is planned for 9 a.m. with awards at 4 p.m.

Last year's tournament attracted more than 130 golfers. To sign up to golf in the tourney or to be a sponsor, call the Sidney Area Chamber of Commerce and Agriculture office at 406-433-1916.

"It's a real fun day," Pooch said. "We try to have different prizes each year."

### Don't Lose Pounds to Infertile or Subfertile Bulls!

**All bulls should have a breeding soundness exam each year. Bulls can be fertile one year & go bad the next!**

***We can test your bulls according to Society for Theriogenolgy (reproduction) standards. When we test bulls we will:***

1. Measure the scrotal circumference
2. Palpate internal sex organs
3. Inspect penis & sheath for warts & other problems
4. Collect sperm & observe them under high power microscope for abnormalities.

***We do bulls from 12 months to 12 yrs. of age. Larger groups of bulls can be done on your ranch. Individuals & trailer loads can be done Monday-Friday in the clinic.***

**PLEASE CALL AHEAD!**

Heidi Miller, Shayla Sorenson & Melanie Philippi*

# MonDak Area Stockgrowers Association Awards Scholarships

By Bill Vander Weele

With funds raised from the MonDak Cattlemen's Ball, four students received scholarships from the MonDak Area Stockgrowers Association on May 24.

Officials explained that because of increased profits from the Cattlemen's Ball, the number of scholarships increased from two to four this year.

Marci Sondeno, co-organizer of the Cattlemen's Ball, noted in each of the three years, the ball has been more successful than the previous year. In 2016, profits were more than \$49,000. Tickets were sold out in 18 days.

"I'm pretty proud of this event," Sondeno said. "The money stays in our area."

Along with the scholarships, funds are donated to Sidney Health Center for health care purchases. The Foundation for Community Care lists needed equipment, and then the MonDak Area Stockgrowers decides which to purchase.

"It brings two industries together – the cattle industry and health care," Sondeno said.

Organizers thanked ranch sponsors and individual sponsors.

"We're really providing an event the public sees value in," Vanessa Pooch, co-organizer of the ball, said.

The fourth ball is scheduled for Feb. 18, 2017.

Whiteman and Wick each received \$1,000 scholarships while Lunderby and Fellman received \$500 scholarships. Applicants must be pursuing further education in an agriculture related field. Selections are based on an essay, leadership and community service.

Whiteman is a 2016 graduate of Richey High School. She will attend Sheridan College to study animal science. She plans to be a doctor of veterinary medicine in rural Montana. She hopes to maintain healthy animal systems while being an advocate for agriculture.

Lunderby is a 2016 graduate of Sidney High School. He plans to attend Sheridan College and study agriculture business. Upon graduation, he hopes to start

his own ranch or feedlot, putting his passion of working with livestock into raising a safe and healthy product.

Wick, a graduate of Fairview High School, now attends Kansas State University. She is pursuing a Doctorate of Veterinary Medicine. She hopes to bring information and services back to rural communities that will improve all aspects of ranch management.

Fellman graduated from Culbertson High School and now attends Montana State University in Bozeman. She studies animal science and hopes to attend Washington State University to become a doctor of veterinary medicine. She wants to return to northeastern Montana and fulfill the veterinary needs of her rural community.

MonDak Area Stockgrowers Association President Gary Schieber presents scholarships to students, from left, Joyce Wick, Dillon Lunderby and Brittany Whiteman. Samantha Fellman is not pictured.

Please wear proper footwear. Boots are not permitted on the course. Team makeup will be assigned by Ag Committee and Golf Course Pro. Sponsored by the Ag Committee of the Sidney Area Chamber.

# Neal Hermanson Ranch Horse Competition and Memorial Ranch Rodeo June 11

Grab your cowboy boots and hat for the first, and maybe best, rodeo in the area. The Neal Hermanson Ranch Horse Competition and Memorial Ranch Rodeo and Calcutta will be held Saturday, June 11 at the Richland County Fairgrounds. Tickets are only \$5 with children 5 and under admitted free.

The rodeo has been held each year since 2009 in memory of Neal Hermanson who died in a tragic accident in 2008.

The day starts at 8 a.m. with the Ranch Horse competition. The top winner of the Jr. horse division for horses 5 and younger, and the Sr. horse division for horses 6 and older will earn a handmade saddle by Trent Taylor. The Novice division features Jr. Youth 13 and under and Sr. Youth for riders 14 to 18. Winners in each division will receive a buckle.

The Neal Hermanson Memorial Ranch Rodeo and Calcutta begins at 2 p.m. The five team events; team branding, team trailering, wild cow milking, team doctoring and bronc riding, promise great action and fun as the cowboys show off their skills. The calcutta for the teams will take place before the rodeo, with the calcutta for the bronc riders taking place just before that event. The winning team qualifies for the NILE in Billings.

Kids can start showing off their rodeo skills early during the mutton bustin' and ribbon pulling competitions, sponsored by the MonDak Stockgrowers.

Proceeds from the day's events go to the Empty Saddle Memorial Foundation which was started in 2009 in loving memory of Neal Hermanson and Levi Wisness who were both tragically lost in 2008.

The Empty Saddle Memorial Foundation seeks to honor and memorialize lost loved ones whose lives have been shaped by the bond between horse and rider, and whose character and spirit were thus shaped by their time spent in the lives of their horses. The ESMF motto is "Mend them, Teach them". The goal and purpose is to help our young folks. This has been and will be carried out through financial aid for medical expenses and educational support through scholarships to recipients. To date the foundation has been able to give out \$40,000.

Plan to spend June 11 enjoying the ranch horse competition and ranch rodeo, knowing that your contribution goes towards helping young people in our area.

**Ryan Forbes carries the flag with the flag while Travis Scoffield is leads the horse with the empty saddle. Forbes and Scoffield were two of Hermanson's best friends.**

Fairview Empty Saddle Scholarship winners presented by Jason McNally to Reagan Finsaas and Benjamin Hardy.

Savage Empty Saddle Scholarship winners presented by Kristen Larsen to Trey Bloesser and Paxton Miller.
